

Center for Mineral Metabolism Clinical Research – Active Studies

Short Title	DNA Database for Studies of Mineral Metabolism
Study Number	1201-633
Study Title	Protocol for Procurement of Patient and Control Blood Samples for Deposit in a Cell/DNA Repository to Facilitate the Study of Disorders of Mineral Metabolism
Disease/Condition Under Study	Kidney Stones
Brief Description of Study	The purpose of this study is to support the laboratory research on diseases of mineral metabolism. Participation will require a blood sample or mouth wash collection.
Participant Eligibility	Patients with disorders of mineral metabolism, normal volunteers
Study Drug	N/A
Study Doctor	Orson Moe, MD
Location	Mineral Metabolism Clinic in the Aston Center Clinical Trials Office in the Aston Center
