

**SOUTHWESTERN**  
THE UNIVERSITY OF TEXAS  
SOUTHWESTERN MEDICAL CENTER  
AT DALLAS

Pulmonary & Critical Care  
Lance Terada, M.D.  
Division Chief

Department of Internal Medicine

**Assistant/Associate/Professor - Pulmonary and Critical Care (07359)**

The Department of Internal Medicine, Division of Pulmonary and Critical Care Medicine, is seeking a Medical Director for Lung Transplantation. Applicant must have an M.D. degree from an approved LCME medical school and satisfactory completion of an Internal Medicine residency and Pulmonary/Critical Care fellowship from an ACGME accredited program. Applicant must in addition have at least three years dedicated lung transplant experience. Level of appointment will be commensurate with experience. Candidate must be eligible for Texas medical licensure and be board certified/eligible in Internal Medicine, Pulmonary Medicine, and Critical Care Medicine. Duties include providing and supervising patient care in ambulatory lung transplant clinics and inpatient services, and postoperative care of lung and heart-lung transplant patients at the University and its affiliated hospitals, performing bronchoscopic procedures, and teaching of residents and subspecialty fellows.

Qualified applicants should send cover letter, curriculum vitae, and three letters of reference to:

Lance Terada, M.D.  
Department of Internal Medicine - Pulmonary and Critical Care  
UT Southwestern Medical Center at Dallas  
5323 Harry Hines Blvd.  
Dallas, TX 75390-8852

Equal Opportunity/Affirmative Action Employer

Department of Internal Medicine

**Assistant/Associate Professor - Pulmonary and Critical Care Medicine (08011)**

The Department of Internal Medicine, Division of Pulmonary and Critical Care Medicine, is seeking an Assistant/Associate Professor. The position requires an M.D. or M.D./Ph.D. in a basic science and two to five years of postdoctoral experience in pulmonary diseases or a related specialty. Level of appointment will be commensurate with experience. The position will develop independent and externally funded as well as collaborative research programs focusing on understanding the molecular and cellular basis for pulmonary diseases. Preference will be given to applicants performing “cutting-edge” research on medically important diseases or process relevant to lung disorder and who have an outstanding publication record. The position will also have medical student, graduate student, and resident/fellow teaching responsibilities as well as clinical duties in Pulmonary and Critical Care Medicine. Candidate must be eligible for Texas medical licensure and be board certified/eligible in Internal Medicine.

Qualified applicants should send cover letter, curriculum vitae, and three letters of reference to:
