

LEARNING OBJECTIVES AND EXPECTATIONS

Gynecology Oncology

The Gynecologic Oncology rotation affords the opportunity to acquire knowledge in surgical and medical treatment of gynecologic malignancies. Patients are private and indigent patients.

Fellows will attend rounds at PMH with the inpatient service as well as PMH Clinic on Tuesday's.

They will also see patients with Dr. Schorge and Dr. Miller on Monday's and Wednesday's at the Simmons Cancer Center. They will also attend Gynecologic tumor board at 8:00 a.m. on Wednesday's.
