

The Clinical Center for Multiple Sclerosis at UT Southwestern is seeking an advanced practice nurse or physician assistant. Patient care, teaching, and research are the three missions of this University based practice. The desire to be an integral member of a broader team involving physicians, nurses, a social worker/case manager, and research investigators is mandatory. Neurology experience and skills are preferred but not required. Intensive training in neurology and comprehensive MS management will be provided by the faculty. Interested candidates should send a CV with proof of licensure, letter of interest, and 3 references to:

Dr. Elliot Frohman, Director of the MS Program
Dept. of Neurology
UT Southwestern Medical Center at Dallas
5323 Harry Hines Blvd.
Dallas, TX 75390-8806.

UT Southwestern is an equal opportunity/affirmative action employer.
