

Department of Clinical Sciences
Division of Biostatistics
University of Texas Southwestern Medical Center
Dallas, TX 75390-8822

Positions Available for a Biostatistical Consultant

The Division of Biostatistics in the Department of Clinical Sciences at the University of Texas Southwestern Medical Center at Dallas provides an internal statistical and database consulting service and has several openings for experienced biostatistical faculty consultants (Ph.D.) or statisticians with a strong interest in developing their consulting expertise as part of the team. The Medical Center is a fast-paced, progressive, medical and scientific research environment with an international reputation.

Division members provide consultation ranging from study design, sample size estimation, analysis to reporting. The successful applicant can look forward to challenging statistical applications, involving univariate, multivariate and longitudinal analyses utilizing SAS, S+, SPSS, and other major statistical packages. They will collaborate directly with the medical and scientific faculty. Excellent written and verbal communication skills are required.

Consultants are provided state-of-the-art statistical software and hardware and have opportunities for training to expand their knowledge of statistical applications and theory. In addition to consulting, duties may include teaching seminars and courses and interaction with database specialists. Faculty rank is dependent on qualifications.
